Hydro-Tech Hydraulics is the Flowserve pump specialty shop. With over 90 years of combined experience in hydraulic systems, Hydro-Tech Hydraulics has experience in the repair and service of Fl

After installing the program, you can select one of the available options to activate the software as a Windows screensaver. All of the default settings are optimized for use with the Oculus Rift VR. At the same time, you can also use Plane9 as a visualization template or plugin for the media players Winamp and WMP. Thus, it provides you with two of the

most popular media players and gives you the opportunity to combine several of the available visualizations with a click of the mouse. Plane9 has the ability to detect the computer screen in standby, suspend mode or automatically shut down and pause the visualization. For this purpose, the program has built-in support for the Oculus Rift VR headset. This multi-purpose tool is also

designed to use as a media player visualization template or plugin for the media players Winamp and WMP.

Additionally, it supports multiple monitors and multiple visualization scenes for each monitor. With this handy tool, you can combine several animations and save the most suitable ones.

Thanks to the various presets and the ability to create your own, you will be able to use this program not only as a

screensaver, but also as a visualizer for your media players, or as a screensaver for the Oculus Rift VR.

What's new in this version:
Enhanced compatibility with Windows 8
Added ability to save visualizations and launch them at logon
Added the ability to use the controls for the Winamp visualization plugin
Added ability to use the visualizations in the Oculus Rift VR

Plane9 is a free screensaver and an amazing Windows media player visualization plugin for Windows 7 and Windows Vista. This free application gives you the possibility to create your own screen effects that can be used with your Windows Media Player or Winamp. The Plane9 screensaver features an impressive variety of short animations

that can be used as themes for your desktop. It can be used as a screensaver preset, a Windows Media Player or as a Winamp visualization plugin. The application includes tens of animated scenes, realistic, surreal, abstract or transitions, plus, it offers you the possibility to combine them and obtain custom visualizations. The Plane9 configuration tool allows you to view the entire collection and select either of

the available options for three categories: background, foreground and post-processing. This action results in thousands of combinations and unique visualizations. You may also group certain scenes into playlists to use with the media players for parties or relaxation. Plane9 can also be configured to power down your monitor when it goes to sleep, without crashing or losing your settings. You can

also set it to automatically shut down your PC after a specified period of time.

Plane9 includes a number of effects and options that enable you to change the characteristics of the screen after it has already been started. You can configure the display mode, change the color depth, set your monitor to a specific refresh rate, and turn the display's brightness up or down. Highlights: •
Very simple and easy-to-use.

- It is possible to create hundreds of screen effects with any visual elements that you like, such as animations, patterns, 2D or 3D objects. •
- It is also possible to control the screen directly, without leaving the software. •
- Plane9 is compatible with the Oculus Rift VR. •
- The application can be used with multiple monitors. •
- The program is very easy to configure, and there is a lot of free content. •
- This

application is totally free. • The Plane9 configuration tool allows you to view the entire collection and select either of the available options for three categories: background, foreground and post-processing. This action results in thousands of combinations and unique visualizations. You may also group certain scenes into playlists to use with the media players for parties or relaxation. • The program is

able to detect when your monitor goes into standby, the PC goes to sleep or automatically shuts down, and pauses the screensaver or the visualization in the media players.

What's New in the Plane9?

Plane9 is an impressive,

multi-purpose 3D visualizer that offers you a large collection of high-quality animated scenes for your desktop. The tool can be used as a screensaver preset, a Windows Media Player or as a Winamp visualization plugin. Preview the visualizations on your screen Plane9 can be used as a visualization template or plugin for two of the most popular media players, not to mention it can be installed as

a screensaver. It can work with Oculus Rift VR and offers support for multi-monitor configurations. The application includes tens of animated scenes, realistic, surreal, abstract or transitions, plus, it offers you the possibility to combine them and obtain custom visualizations. The Plane9 configuration tool allows you to view the entire collection and select either of the available options for three

categories: background, foreground and post-processing. This action results in thousands of combinations and unique visualizations. You may also group certain scenes into playlists to use with the media players for parties or relaxation. Impressive screensaver and visualization theme One of the most notable features of Plane9 is the high-quality, visually appealing patterns, colors

and animations. It features both dynamic, high-contrast themes, as well as smooth, relaxing, animations that you can use. You can choose the application's uses during the installation: for instance, you can enable or disable either the Winamp plugin, screensaver, WMP plugin components. In case of a complete installation, the animation collection is instantly visible in the screensaver control window.

Similarly, the visualization can be activated within the media players once you restart them. Screen decoration with multiple uses Plane9 can detect when the monitor goes into standby, the PC goes to sleep or automatically shuts down and pauses the screensaver or the visualization in the media players. The program is simple to configure and allows you to combine several of the scenes you

prefer, to create new themes in a short time. Plane9 is an impressive, multi-purpose 3D visualizer that offers you a large collection of high-quality animated scenes for your desktop.
